**Office of Legislative Counsel**

**Friday - 11 April 1958**

In connection with our proposed reply to the House Committee on Education and Labor on the two education bills, H. R. 10231 and H. R. 10278, Mr. Earl Radley in the Bureau of the Budget indicated that H. R. 10278 is an Administration bill to which Health, Education and Welfare has proposed an amendment. Mr. Radley indicated that the HEW amendment concerned the language and foreign area knowledge fields and had been accepted by Budget. We will review these amendments before clearing our proposed comment with the Bureau of the Budget. Mr. Radley also indicated that a Mr. [redacted] of this Agency had been in touch with Budget on these bills.

Congressman John E. Pillion (R., N. Y.) called to say that he would be on a television program on Sunday and that he was interested in getting a copy of the Soviet publication Kommunist of 23 March 1958 containing an article by William Z. Foster. Pillion had seen a reference to this article in the Baltimore Sun newspaper. After checking with FDD, Congressman Pillion was advised that this publication had not yet been received in this country and therefore could not be made available to him for his Sunday program. The Congressman thanked us for checking on it and asked that he be given a copy of this publication when it is received. FDD has a tickler on this.

A draft of a letter to Mr. Andrew Duncan of the Defense Department for ADD/S signature was cleared with FDD (Mr. Bagnall) and OOR (Mr. Borel). However, since FDD had sent Mr. Duncan a copy of the DDCI's letter of 7 February 1958, the ADD/S telephoned Duncan and told him that if that letter was not sufficient for his purposes to let us know.
